

# Vincent Ogbunude

MD, Payment Tokens (Verve)

Vincent is a pioneer staff member of Interswitch, having joined the company as a Solutions Engineer and built his career within the organization.

Through diligence and consistent performance, he rose to become a member of the Senior Management Committee, serving in diverse leadership roles including Team Lead, Systems and Applications Integration and Support, Divisional Head of Systems Integration, Chief Technology Officer, and Group Head, Business Incubation, a role he assumed in April 2018.

With over 16 years of industry experience, Vincent also served as Chief Executive Officer of National Payment Switch of The Gambia, Gamswitch, in which Interswitch has a vested interest, before returning to Interswitch as Group Head of Product Management. He is currently the Managing Director of Payment Tokens, Verve, and is a graduate of Computer Science from the University of Nigeria, Nsukka.
