

Forecourt Automation

Power Your Station. Grow Your Business. The Future of Fuel Retail Is Automated.

Overview

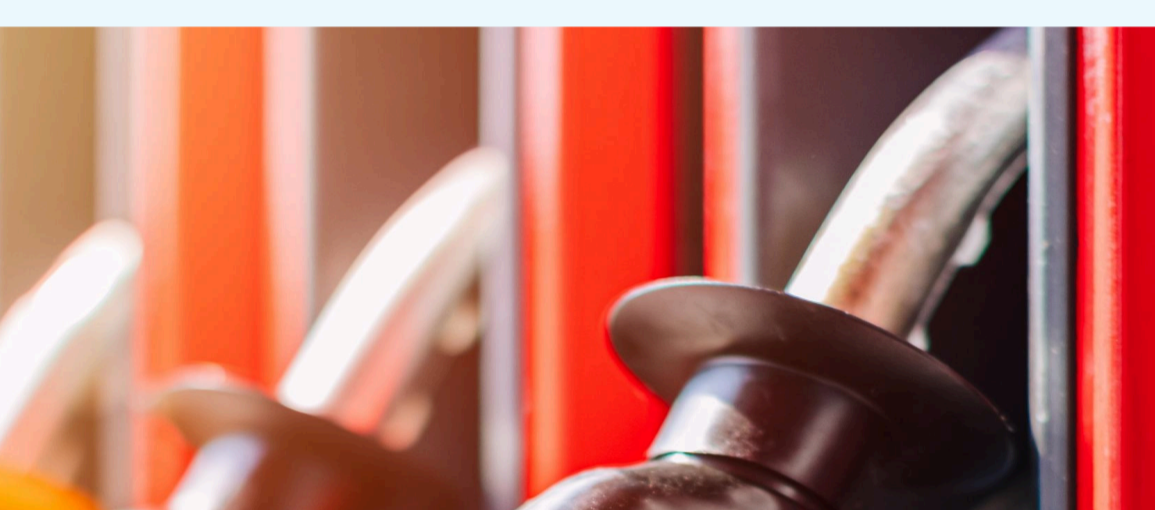

Managing a fuel station shouldn't be guesswork. Prices change quickly, and customers demand efficiency. Interswitch SmartFuel Forecourt Automation streamlines your operations by connecting pumps, payments, reporting, inventory, and more into one intelligent system.

Gain full control from anywhere, with no disruption to your current setup.

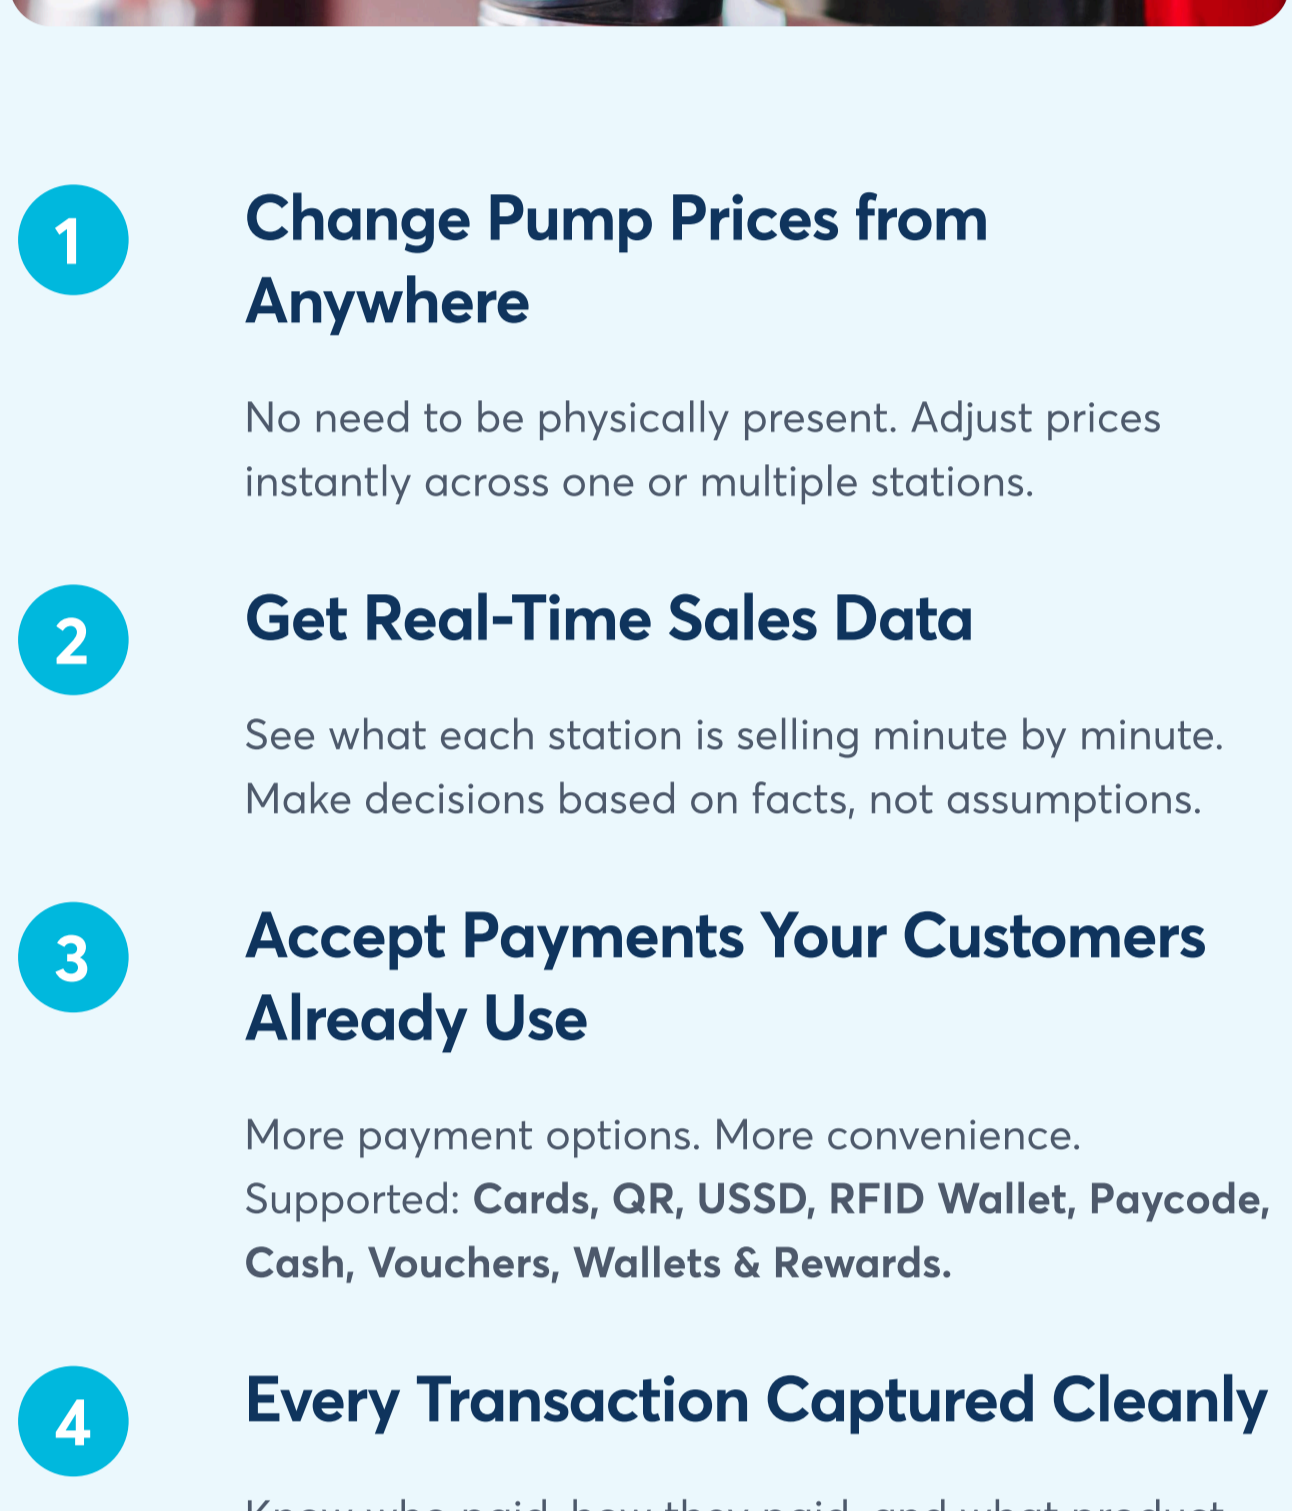

Benefits of Forecourt Automation

- 1 Monitor pump operations in real time.
- 2 Track each sale as it happens.
- 3 Check product levels easily.
- 4 Accept different payment methods.
- 5 Reduce losses and leaks.
- 6 Enhance customer experience.
- 7 Manage your stations from anywhere.

It's clean, fast, and made for modern fuel retailing.

Why Station Owners Love Forecourt Automation

1 Change Pump Prices from Anywhere

No need to be physically present. Adjust prices instantly across one or multiple stations.

2 Get Real-Time Sales Data

See what each station is selling minute by minute. Make decisions based on facts, not assumptions.

3 Accept Payments Your Customers Already Use

More payment options. More convenience. Supported: **Cards, QR, USSD, RFID Wallet, Paycode, Cash, Vouchers, Wallets & Rewards.**

4 Every Transaction Captured Cleanly

Know who paid, how they paid, and what product was dispensed without reconciliation headaches.

Key Product Features

Integrated Multichannel Payments

Seamlessly accept payments across all major channels.

Wireless Setup & Deployment

No messy rewiring or complex infrastructure. Installation is fast and disruption-free.

Real-time Online Monitoring

Watch operations as they happen at any station, any pump, anytime.

Customizable Reporting

Break down data by pump, station, product, or time. Perfect for owners, managers, and accountants.

Inventory Management

Track product levels, deliveries, stock movements, and reorder alerts.

Remote Station Management

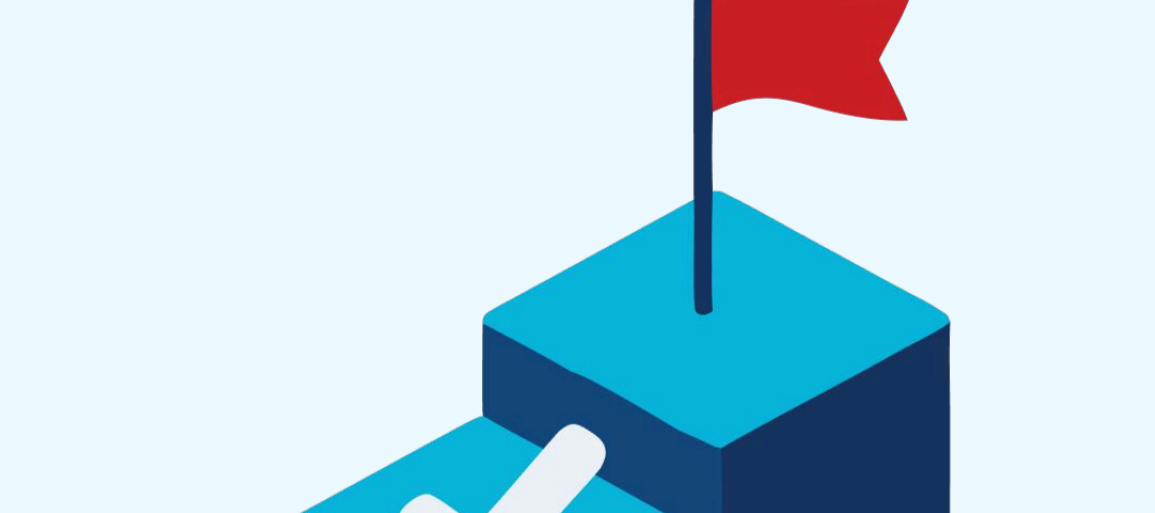

Oversee operations from your phone or laptop. Make changes instantly.

Fleet & Corporate Support (AVIS)

With the Automated Vehicle Identification System (AVIS), you can activate fleet fueling, eTags, and controlled dispensing for corporate clients or households with multiple vehicles.

This helps you unlock:

- 1 High-volume corporate accounts
- 2 Fleet management partnerships
- 3 Loyalty & reward programs
- 4 Differentiated service offerings

Who We Partner With

We work with trusted players across the industry:

Oil Majors & Independent Marketers, Banks, Card Schemes, Technology Providers, GPS IoT Partners & PTSPs.

Current partnerships include FuelFact and Fuelmetrics, with ongoing engagements across the value chain.

What You Stand to Gain

- 1 Lower operational losses & better accountability
- 2 Faster service for customers & stronger revenue insights
- 3 Reduced manual errors & higher station efficiency
- 4 A more secure, future-ready business

Your station becomes smarter, faster, and more profitable.

Designed for the Way You Work.

Whether you run one station or a nationwide network, FCA scales seamlessly. Deploy it as a full bundle or choose only the modules you need.

Your Station. Fully Upgraded.

This isn't just automation. It's control. It's transparency. It's better business.
