

Your Business Needs A Smart POS

Why Choose Interswitch Smart POS?

Interswitch Smart POS is built for businesses that demand reliability, flexibility, and scalability. Whether you are a small retail business or a large enterprise, our POS solution adapts to your needs, offering an easy-to-use platform that integrates seamlessly with your existing systems.

Why Choose Our Smart POS?

Global Merchant Acceptance

Interswitch Smart POS allows you to accept payments from six (6) international cards: Amex, Mastercard, Visa, JCB, Discover, and China Union Pay.

Customized Solutions

Tailored to your business needs, offering: Till Integration, Personalized Invoicing and POS Receipts Customization

Multi-Channel Payment Options

Accept a variety of payments, including: Card Payments, Bank Transfers, QR Codes, USSD, E-Cash & Wallet Options, Contactless Payments Card-not-present Transactions

Same-Day Settlement

Experience prompt and seamless same-day or next-day settlement to any Nigerian bank account of your choice. We settle in Naira and USD.

Transaction and Settlement Reporting

Real-time display of transactions processed through the Interswitch Smart POS terminal(s). Access a robust settlement view to track both transactions and settlements seamlessly.

Pre-Authorization Completion and Cancellation

Charge a card to confirm funds availability without completing the transaction immediately. The final amount can be captured or adjusted before settlement.

360° View of Online and Offline Transactions

Manage and synchronize both web and POS transactions on a single platform, offering full visibility and control.

99.9% Uptime and Instant Notifications

Enjoy alternative backup failover and automatic switching in the event of NIBSS downtime. Receive instant notification screen displays within 2 seconds for every transaction processed on the terminal.

Robust Dashboard

An intuitive and user-friendly dashboard with simplified data for reconciliation, plus insights and analytics on your sales performance.

Chargeback Reduction

Our auto-reversal feature on POS terminals ensures chargeback reduction by at least 95%, safeguarding your revenue.

Verve Card Promotions for Contactless Payments

Unlock special promotions, such as discounts, cashbacks, or loyalty points for customers using Verve contactless cards at your stores, ensuring smooth and faster transactions.
